

RAY'S PUTTS

Last week Derick Frere spoke to us about increased aircraft activity and the impact on residents as a result of flight path changes. As an outcome of changes some years ago they had an impact to Derick's peaceful life in leafy Turramurra, which prompted him to become an activist for a second airport for Sydney. After a period of approximately 15 years there is still no decision on if, where, or when a second airport will be built. Derick was introduced by Grahame True and thanked by Bradley Ayres.

Rod Rimes, Grahame True, Derick Frere and President Ray.

Thanks to David Croft who only arrived back from overseas on Wednesday morning for providing members with a summary of his trip but in particular an on the spot account of cyclone Sandy as it gathered intensity and its impact in southern areas of America prior to it hitting the East Coast of America with force resulting in major damage which we are all well aware of now.

Last Friday night Adrian Risi and Angelina Canturi hosted some of us at their Cave Road Cibo & Cibo Deli, where we tasted great cheese and sampled some lovely Italian wine. It was a great night enjoyed by some 19 members and partners. Adrian & Angelina have requested the money collected on the night (\$475) be donated by the Club to Chalmers Road Special School.

President Ray
